

Heating/Cooling

Fan coil solutions

Fully custom air handling units manufactured in Alberta

Water sourced heat pumps & water cooled chillers

Low H2O hydronic heating and cooling

High efficiency air cooled & water cooled chillers

Vertical stack fan coil products with integrated ERV/HRV

Electric heating

QMark electric heaters, Leading Edge fans & Air Curtains

Finned tube heating and cooling coils, condensing units, & dry coolers

Finned tube heating and cooling coils, dry coolers, & condensing units

Hydronic heating and cooling, steel panel radiators

Explosion proof, corrosion protected, & severe duty HVAC/R system

Ruffneck explosion proof heaters & Cata-Dyne catalytic heaters

Hydronic heating & cooling

Radiant heating and cooling panels & chilled beam

Ventilation

Grilles, registers, diffusers, VAV boxes

High efficiency heat recovery units

Make up air units and a full line of ventilation products

Vehicle exhaust, welding & fume extraction

Ventilation fans

Make up air units and a full line of ventilation products

Dust collection & fume extraction systems

Special filtration & scrubbers

Commercial & industrial fans, blowers & dampers

HVLS (High Volume, Low Speed) fans

Ventilation Fans

Induction units, bubble dampers, air valves

Grilles, diffusers, registers, VAV, & Air terminals

Louvers & dampers

QMark electric heaters, Leading Edge fans & Air Curtains

Fans, ERV/HRV, & kitchen hoods

Electric heating

Electric duct heaters

Destratification & HVLS Fans

Explosion proof, corrosion protected, & severe duty HVAC/R systems

Commercial & residential ERV/HRV

Fans, ERV/HRV, & kitchen hoods

Fans, scrubbers, & hoods for challenging corrosive ventilation

High plume dilution exhaust fans for corrosive environments

Specialty

Pressure gauges, temperature instrumentation, regulators, & control valves

Bi-Polar Ionization Technology to Improve Indoor Air Quality

Fluid flow control valves

VFDs

Variable frequency drives for HVAC equipment

Harmonic Filters
