

Heating/Cooling

Chillers, condensing units, air handling units, fancoils, VRV, rooftop units

Fully custom air handling units manufactured in Alberta

Fan coil solutions

Low H2O hydronic heating and cooling

High efficiency air cooled & water cooled chillers

Vertical stack fan coil products with integrated ERV/HRV

Ruffneck explosion proof heaters & Cata-Dyne catalytic heaters

Split A/C, condensing units, and furnaces

Finned tube heating and cooling coils, condensing units, & dry coolers

Finned tube heating and cooling coils, dry coolers, & condensing units

Hydronic heating and cooling steel panel radiators

Explosion proof, corrosion protected, & severe duty HVAC/R system

Induction units, bubble dampers, air valves

Hydronic heating & cooling

Radiant heating and cooling panels & chilled beam

Pumps/Hydraulics

Steam and hydronic boilers

Commercial pumps, heat exchangers, tanks, & hydronic accessories

Engineered domestic booster packages & custom pump skids

Ventilation

High efficiency heat recovery units

Make up air units and a full line of ventilation products

Dust collection & fume extraction systems

Fans, scrubbers, & hoods for challenging corrosive ventilation

High plume dilution exhaust fans for corrosive environments

Enthalpy & sensible heat wheels

Louvers, dampers, ventilation hoods, & penthouses

Commercial & industrial fans, blowers & dampers

Special filtration & scrubbers

Specialty

Pressure gauges, temperature instrumentation, regulators, & control valves

Bi-Polar Ionization Technology to Improve Indoor Air Quality

Fluid flow control valves

VFDs

Variable frequency drives for HVAC equipment

Harmonic Filters

Humidifier

Humidification and evaporative cooling solutions
